

Affidavit

Affiant Johnny Samples states; I was assigned by Hon. Cynthia Sanderson to pick up the children from Michelle Samples so that her and James could avoid contact with each other. This was arranged with the understanding that if for health reasons I was unable to make the exchange that we would use other family members. In 2008 I received a phone call from Michelle advising that James had just sprayed pepper spray into the floor as a means to get unpinned by Michelle. She stated that James was wrongfully accused of allowing pepper spray to come into contact with Kadence. I advised Michelle to take the baby straight to be scanned for UV at the emergency room at Lourde's Hospital because the pepper spray contains an ultraviolet dye that is not washable. Michelle took Kadence to ER and they were able to confirm that Kadence had not come into contact with the pepper spray. She said that she should have let James get up but she was pregnant, emotional and off her medication.

Since their separation Michelle routinely denies James most of his visitations with the children. Michelle also refuses to allow me to eat lunch at the school with the children or contact the children. She does not allow contact because one she is vindictive and two the children report instances of abuse to me.

While taking the children swimming, I have witnessed bruises on Kadence's back and upon asking what happened Kadence explained that her mommy had gotten mad at her.

Michelle told me that she would meet Jeannie Samples and Sheila Samples at 5:00pm on May the 15th, 2015 at McDonald's with the children. As opposed to doing so she went to sheriff's office and made an allegation against James. While I had emergency custody of Kadence my granddaughter she told me that the reason that her mommy didn't want to drop them off was to prevent James from seeing the marks where the children had been hit by Billy Don Waynick with a stick. I met Michelle at Billy Don at Tractor Supply. I expressed concern about the welfare of the children. I was unaware at the time of the alcohol and drug abuse and I gave Michelle \$100.00 to buy the children's birthday presents. When I asked Kadence what she had gotten with the money she replied nothing.

Michelle denied us of seeing the children through the January visits. When she finally brought us the children it was apparent that Christopher was recovering from a black eye. When my son asked him what had happened Christopher said that Billy Don was being mean.

In November I went to the house that Michelle was renting and witnessed various types of whisky bottles being cleaned out. There were enough to have made several rent payments. I also heard Michelle testify that the Jim Beam bottles were hers and the rest were her boyfriends.

Executed this 5th day of February, 2016.
